

**MARIE STOPES
INTERNATIONAL
ETHIOPIA**

Ref. No: MSIE-1025/13

Date: September 25, 2013

To: - Oromia Regional State Health Bureau (ORHB)

Health and Health Related Services and Product Quality Regulation Core Process

Addis Ababa

Subject: - Request License for Adama MCH Specialized Center

Dear Sir/madam

During the last two decades, Marie Stopes International Ethiopia (MSIE) is operating throughout the country to improve access and choice of sexual and reproductive health to women, men and children. As one of its program operational areas, MSIE is working in Oromia regional state through providing services using its mobile outreach program, static health centers, and through supporting private clinics under the social franchising program.

In addition to this, MSIE is working in partnership with the regional health bureau in maternal and child health care program mainly immunization campaigns; worda based planning and other regional health activities. To improve and scale the range of services in the Oromia regional state, MSIE has built a state of art building in Adama to provide MCH services including comprehensive Emergency Obstetric Center (CEmOC).

As per attached paper and scenarios at the ground, MSIE kindly requests your esteemed office to provide us a license for an MCH specialized center with the understanding and agreement that MSIE shall fulfill all the requirements within one year issuance of the license according to the Food, Medicine and Health Care Administration Control Authority (FMHACA)

Best regards

Abebe Shibru
